PROFESSIONAL SUMMARY

Full Stack Developer and DevOps Engineer with hands-on experience building cross-platform mobile applications (Flutter) backed by Laravel/PHP backends and Filament admin panels. Skilled in end-to-end product delivery — from UI development and API design to deployment automation, CI/CD pipelines, and infrastructure management. Previously served as Project Coordinator, bringing strong project management, client communication, and team coordination skills. Continuously expanding expertise in modern DevOps practices and AI-powered automation.

CORE COMPETENCIES

- Full Stack Developer (Flutter + Laravel)
- DevOps Engineer (CI/CD, Docker, Infrastructure)
- Mobile App Development (Flutter / Dart)
- Backend Development (Laravel, PHP, Filament, MySQL)
- Project Coordination & Team Management
- WordPress Development & Digital Marketing / SEO

EXPERIENCE

Full Stack Developer & DevOps Engineer

Oct 2025 – Present

LoadUp Load Board (Full-time), United Arab Emirates · On-site

- **Mobile Development:** Building cross-platform mobile applications using Flutter for iOS and Android, focusing on smooth UI/UX, state management, and performance optimization.
- **Backend Development:** Developing robust backend systems with Laravel (PHP) and Filament admin panels, including RESTful APIs, authentication, role-based access control, and database design with Eloquent ORM and MySQL.
- **End-to-End Integration:** Connecting Flutter mobile apps seamlessly with Laravel backends through well-structured APIs to deliver a unified product experience.
- **DevOps & Deployment:** Setting up CI/CD pipelines, managing server provisioning and configuration, containerizing applications with Docker, and ensuring system reliability through monitoring and incident response.
- **Continuous Learning:** Currently advancing DevOps skills through “Decoding DevOps – From Basics to Advanced Projects with AI”, deepening expertise in Infrastructure as Code (IaC), automation, and AI-driven DevOps workflows.

Project Coordinator

Dec 2023 – Oct 2025

Cadvil Solutions LLC (Full-time), Dubai, United Arab Emirates · On-site

- **Project Management:** Organized and planned all aspects of projects, from initiation to execution and delivery — identifying resources, setting timelines, and monitoring progress against objectives.

- **Client Communication:** Acted as the primary liaison between the company and clients, coordinating meetings, providing progress updates, and ensuring clear alignment with client needs and expectations.
- **Team Coordination:** Collaborated with design and development teams to schedule tasks, track completion, and resolve issues throughout project lifecycles.
- **Budget Management:** Monitored project budgets to ensure delivery within financial constraints while maintaining work quality.
- **Reporting:** Prepared regular status reports outlining progress, challenges, and achievements for senior management.
- **Problem Solving & Quality Assurance:** Responded quickly to project obstacles and ensured all deliverables met required quality standards.

Web Developer

Feb 2023 – May 2023

MS Rockets, Khartoum, Sudan

- Developed and maintained web-based PHP applications, CMS systems, and Laravel-based platforms.
- Collaborated with design and development teams to deliver high-quality, scalable products.
- Designed responsive, mobile-first websites from design concepts.
- Implemented SEO and A/B testing strategies to improve marketing effectiveness.

Backend Developer

Oct 2022 – Feb 2023

Karansha Software, Khartoum, Sudan

- Developed and maintained robust, scalable backend systems using PHP, Python, and Laravel.
- Built comprehensive admin panels leveraging Laravel Admin capabilities.
- Collaborated with cross-functional teams to design and implement efficient solutions meeting client requirements.
- Optimized database performance and implemented data security best practices.
- Worked with Git and version control workflows across team repositories.

WordPress Developer

Aug 2022 – Oct 2022

SudaBase, Khartoum, Sudan

- Leveraged strong WordPress core knowledge to customize admin and theme components.
- Created and maintained reusable code libraries to streamline the development cycle.
- Debugged live sites using Chrome Inspector and Firebug.
- Designed responsive, mobile-first websites and implemented SEO best practices.

Junior WordPress Designer

Sep 2021 – Aug 2022

Digi Mar Pro, Khartoum, Sudan

- Developed and customized WordPress themes, plugins, and complete sites.
- Created reusable code libraries and integrated OTS plugins for expanded functionality.
- Provided timely resolution to website issues by integrating new solutions.
- Designed responsive, mobile-first websites and assessed SEO performance.

EDUCATION

Bachelor of Science in Information Technology

Sudan Academy for Banking & Financial Sciences · January 2020

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, FlutterFlow

Backend & Web: Laravel, PHP, Filament, Python, MySQL, SQL, REST APIs

Frontend: HTML, CSS, JavaScript, WordPress, WebFlow

DevOps & Infrastructure: Docker, CI/CD, Cloud Computing, cPanel, WHMCS, Git

Design & Tools: Figma, Adobe Photoshop, Canva, CapCut

AI & Emerging Tech: AI Tools, Prompt Engineering, AI-driven DevOps Automation

CONTINUOUS LEARNING

Decoding DevOps – From Basics to Advanced Projects with AI *(In Progress)*

- Modern DevOps tooling, workflows, and Infrastructure as Code (IaC).
- AI-driven DevOps practices for smarter operations and automation.
- Hands-on projects covering beginner to advanced real-world scenarios.

KEY STRENGTHS

- Excellent Communication & Stakeholder Management
- Problem-Solving & Analytical Thinking
- Training, Mentoring & Team Collaboration
- Time Management & Multi-Project Delivery
